

Soneva Surf Factsheet

The mission of Soneva Surf is to offer a fully sustainable and luxury surfing experience in undiscovered locations in the Maldives. We aim to be a model for sustainable surfing around the world.

Surfing will be offered at Soneva Fushi in the Baa Atoll, Soneva Jani in the Noonu Atoll, and from Soneva in Aqua. The surfing locations in the Baa Atoll and Noonu Atoll are currently unknown to the surfing world. The surf breaks are less traveled, uncrowded, and secret.

We encourage our surfing guests to leave everything at home. We will provide the usage of our eco-friendly surfboards, sunscreen, and wax. Join the sustainable surfing movement and let's take care of our ocean home.

Introduction to Surf (Theory & Lagoon Lesson)	Baa Atoll/Noonu Atoll Surf Trip at various surf breaks in the Atoll		Soneva in Aqua Surf Charter within the Baa & Noonu Atoll

Waves in Noonu and Baa Atoll

There are 13 surfing locations in the Baa Atoll and 11 in the Noonu Atoll; however, there are still more to be discovered.

Surf season is dependent on Mother Nature's mood, though it does peak from May - October. Waves range from waist to head high.

We don't like to reveal where our surf locations are, as we hope to keep them pristine, rare, and secret.
