

### **Family Activity Guidance For Paradise Koh Yao**

Our resort focuses more on the romantic angle as we mainly cater to couples and honeymooners.

Having said that, we still welcome and encourage families to come and stay with us, however we do not have any dedicated childrens clubs or enterainers, however we do offer free child stays and boat transfers when staying in same room as the guardians. We also offer 50% off the 2<sup>nd</sup> room, if you require 2 rooms.

We have complimentary wide collection of beach toys and ball games that children can choose from to play with during their stay as well as activities such as batik painting or tie dye classes that can be organized with our activities team.

In addition, we have family excursions such as kayak trips through Phang Nga or Island-hopping tour.

During the past year, we started the Top 5 trips where we took guests on a journey to explore the best locations on Koh Yao Noi. One of them is the Lobster farm, where other varieties of sea life are also on display for guests to view; Jack fish, Pufferfish, a variety of star fish as well as Lobster. This would be very entertaining for families whilst staying with us in Paradise.

For active families, the mountain bike tour of Koh Yao Noi is also a great option. We drop guests off by boat in the local town with the bikes and provide details of where to go. The roads are quiet and all nicely paved flowing through the rice fields and around the island, often with special sea views and plenty of stopping points for refreshments and picture moments.
