Our accompanied hikes to see the Petroglyphs (Rock Engravings) offer you the ideal opportunity to learn about the finest art created in pre-historic times. The artists who created these images lived and worked in the Magaliesberg Valley between the Stone Age and Iron Age (approx.. 2000 – 500 years ago). A short walk to the top of the hill reveals the skills of these people in their near perfect images of various animals with little more than a piece of metallic rock and at best, a crudely fashioned iron spike.
